

Kwiz

The last quarter's quiz:

In this Konkani family, Shruti's daughter Arshika need to be picked from the school every other day. Shruti asks one of her colleagues to pick her from school. Shruti devised a password mechanism to confirm that Arshika goes with the correct person only.

The password on Monday was SAM16.

The password on Wednesday was RSW39.

What will be the password for Friday?

Answer: TIF56 (T - 5th letter from Shruti, I - 5th letter from Arshika, F – Friday, 5 - 5th day of the week and 6 - Number of letters in Friday)!

The following gave the right answers:

Govind Kamath, Austin, TX

Vindya Bhat, New York, NY

Praveen Kamath, Centreville, VA

Continuing with the Konkani tradition of quizzing, here's the brainteaser for this quarter. If you can solve this correctly, send it to Khabbar address to have your name published in the next issue if your subscription is current.

If $abc+abc+abc = bbb$, can you find the value of a, b and c?
