Prakash Mallya, Sierra Madre, CA

Deepak Kini, Spring, TX
Arkal Mohan Shenoy, Delmar, CA
Srirammohan Beltangady, Gainesville, VA

This Kwarter's Kwiz

By "Vasanthmaam"

Continuing with the Konkani tradition of quizzing, here's the brainteaser for this quarter. If you can solve this correctly, send it to Khabbar address to have your name published in the next issue <u>if your subscription is current.</u>

A Konkani mystic has a very specific ritual for climbing up the steps to the temple. First he climbs up to the middle step and meditates for 1 minute. Then he climbs up 8 steps and faces east until he hears a bird singing. Then he walks down 12 steps and picks up a pebble. He takes one step up and tosses the pebble over his left shoulder. Now, he walks up the remaining steps three at a time which only takes him 9 paces. How many steps are there?
